

Innovation. Ingenuity. Inspiration.

A 50TH ANNIVERSARY CELEBRATION

50 Years of Excellence

IMPACO®

1958 - 2008

IMPCO was founded in 1958 by a group of California's finest hot rodders whose innovation and ingenuity brought forth products that are still being manufactured today. The commitment, dedication and inspiration shown by the original founders continues to drive IMPCO's latest product offerings.

IMPCO's manufacturing and distribution of components and systems that enable engines to run on natural gas or propane is leading the way to a cleaner world.

Join us as we celebrate our **50TH ANNIVERSARY** and re-enter the North American automotive market.

The pathway to a cleaner environment for the nation
and for the world will take the talents and commitment of many.

WE ARE PROUD TO BE PART OF THE SOLUTION.

ON FEBRUARY 6

IMPCO will re-enter the North American automotive market. Envisioned by design enthusiasts who, in 1958, pushed the limits of alternative fuels, this legacy is why IMPCO remains grounded in innovation, ingenuity and inspiration.

TODAY

IMPCO is a world-wide leader in the manufacturing and marketing of products and systems that allow transportation and industrial engines to operate on clean burning, gaseous fuels such as natural gas and propane.

BE A PART

of this new milestone – the celebration of our 50th anniversary and the launch of a production line to manufacture our EPA certified North American bi-fuel conversion systems that enable gasoline vehicles to run on natural gas or propane.

IT IS OUR VISION

and commitment to participate in the established and rapidly growing alternative fuels industry which is being driven by the global need for cleaner air, less expensive fuel, reduced dependence on foreign oil and a reduction of greenhouse gas emissions.

JOIN US

February 6, 2009 at 10 a.m.

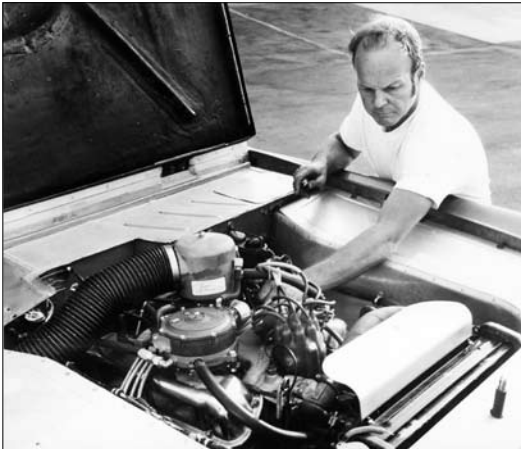

PROGRAM

- *Presentations from our leadership and special guests who are part of the solution to ensure a better world for all*
- *Plant tours including the new automotive division*
- *Lunch*

IMPCO's corporate office and manufacturing facility is located at 3030 South Susan Street in Santa Ana, California.

TO RSVP

Contact Colleen Woo at (714) 656-1334 or cwoo@impcotechnologies.com by January 30, 2009.

**“I WAS THE FIRST
EMPLOYEE AT IMPCO,”**

he said proudly. “It gave me the opportunity to work with geniuses in design and production, with men who believed in the team approach.”

– Don Bass

- IMPCO’s first employee
- Established IMPCO’s racing program
- Instrumental in developing the “Clean Air Car”
