(RTTNews) - Tuesday, Fuel Systems Solutions Inc. (FSYS: [News](#)) said it would begin manufacturing its innovative alternative fuel solutions for the North American transportation market during the first quarter of 2009 at its U.S. subsidiary, IMPCO Technologies Inc. The company noted that this launch expands its global distribution of transportation products.

The company also said on February 6, 2009, IMPCO would officially launch its U.S. Automotive Alternative Fuel Division during the IMPCO 50th anniversary celebration event at its Santa Ana corporate headquarters.
